EXPERIENCE

UX Designer TripArc

August 2021 - August 2023

- Redesigned products to be more intuitive and consistent by contributing to a design system and creating user flows with iterative mockups in Figma that meet user and business needs
- Collaborated with developers, product managers, and stakeholders to implement designs and receive feedback
- Led user interviews and usability tests to create data-driven design solutions and improve the product features

UX/UI Designer DigitalMainStreet

September 2020 - December 2020

- Utilized client's store analytics and user/industry research to make changes in the user journey and increase sales by 40%
- Introduced new plugins into online stores to attract new and returning customers and increase conversion rates by 60%
- Implemented and taught general design guidelines to clients to improve their personal design and CMS abilities

UX Designer DigitalMex

October 2019 - December 2019

- Analyzed the previous website by utilizing heatmaps on Hotjar to find common user journeys and habits
- Redesigned the website based on heatmaps and industry research for a better user experience using Figma
